Bangalore, Karnataka, India

Summary

Product Engineer with 3.5 years of experience building scalable mobile applications using Flutter. Led the development of 7 production-grade apps, including white-labeled platforms and enterprise solutions. Strong focus on clean architecture, real-time systems, and delivering high-quality user experiences.

Skills

Mobile Development: Flutter, Dart, Android, iOS

Architecture & State Management: Scalable Architecture, BLoC, Riverpod, GetX, Design Patterns

Performance & Quality: Debugging, Optimization, Unit & Integration Testing

Tools & Delivery: Firebase, Git, CI/CD, App Releases (Play Store, App Store), Jira, Agile (Scrum)

Experience

Product Engineer | Samaaro | Bangalore, India

07/2024 - Present

- Built and launched **7 mobile applications (5 client-facing, 2 internal)** from scratch using Flutter
- Led **end-to-end mobile development lifecycle** including architecture design, development, testing, deployment, and post-release maintenance
- Designed a **white-labeled attendee platform**, enabling scalable client customization
- Delivered applications for enterprise clients including **PepsiCo, Apex Group and Apex Invest**
- Managed **App Store & Play Store releases**, including build pipelines and versioning
- Implemented **CI/CD pipelines**, improving release efficiency and reliability
- Established the foundation for **mobile engineering practices** within the organization, contributing to the evolution of the mobile platform

Mobile Application Developer | WHY Global Services | Chennai, India

10/2022 – 07/2024

- Developed **cross-platform mobile applications** using Flutter for Android and iOS
- Built responsive and engaging UI/UX, improving usability and user interaction
- Integrated **third-party SDKs** and real-time features (e.g., Google Maps, WebSockets)
- Collaborated with **cross-functional teams** to deliver production-ready applications
- **Mentored interns** and conducted code reviews to improve code quality and team

Volunteering

Core Team Member - Namma Flutter (Google-recognized community)

12/2025 - Present

Contributed to organizing developer events, coordinating speaker outreach, and conducting technical sessions, while actively engaging with the broader developer community.

Key Achievements

Open Source Contributor - Namma Wallet | [Android](#) | [iOS](#)

Contributed to feature development, including home widgets and contributor modules, and implemented CI/CD pipelines for Play Console releases using Fastlane.

Technical Writer - Medium

Published articles on deep linking, CI/CD (Fastlane), and mobile security practices
